22,000,000 SMOKES SENT TO 'OUR BOYS'

Contributions of Fund Fans Buy Tons of Tobacco Shipped Across.

RIG PARADE TO-MORROW

Mothers to Be Among Legions of Marchers-Film Folks Doing Bit.

Just two months ago to-day, on July 14. THE SUN Tobacco Fund made its initial chipment of smokes to our soldiers in France. That first consignment included more than a million and a quarter of cigarettes-1,275,000, to be exact. Since then other consignments have gone out at regular intervals.

Up to date the fund has delivered to the Government transport service to be sent to the boys "over there" sixteen separate and distinct shipments, totalling hundreds of tons in weight and numbering more than 22,000,000 smokes. This great supply included 11,000,000 "ready mades," "makings" for more than 7,000,000 cigarettes and tobacso sufficient to fill more than 4,000,000

Assuredly the publication of these figures will give gratification to the hundreds of loyal supporters of the To-bacco Fund. Twenty-two million smokes ent in two short months! The pleasure sent in two short months: The pleasure which the tobacco has given the brave boys at the front has been indicated in eccasional cable despatches. The appearance of each new consignment is greeted with shouts of joy and thanksgiving. It stimulates the determination lads to do their very level best i

For Period of War!

The point to remember after studying this presentation of results of the first nonths' work is that the campaign has little more than besun. The recruits for THE SUN Tobacco Fund, like the men in the National Army, are en-listed for the period of the war. More troops will be sent to the front almost

men in the National Army, are enjected for the period of the war. More troops will be sent to the front almost constantly for a long time to come and the demand for smokes will be never ceasing. The fellows in the camps and the trenches will do their part. Those who stay behind should do theirs!

What the East Side thinks of the smoke movement is going to be demonstrated most impressively in that monster parade to-morrow afternoon. Men and women from many nationalities—all Americans now; boys and girls, social workers, persons unable to reach the front, but determined to do their bit at home—best of all the mothers, who, better than anybody else in all the world, know what their brave boys need and want most, will give eloquent testimony to their interest in the Tobaco Fund and all that it stands for.

At the head of the processing will almost come and the demand for a long time to come and the demand for almost impressively in that when the camps and the trenches will do their stay being the demonstrated to make shaded trees transplanted to make shaded trees to the doves and shops have been built, churches erected, whole trees transplanted to make shaded trees transplanted to make shaded trees transplanted to make shaded trees to the doves and shops have been built, churches erected, whole trees transplanted to make shaded trees to the doves and shops have been built, churches erected, whole trees transplanted to make shaded trees to the street, and the village is complete to the smallest detail, even to the doves and shops have been built, churches erected, whole trees transplanted to make shaded trees.

MUCH HEADWAY IN DRILL

Conscripts Making Far Better Headway Than Recruits-Officers Are Delighted.

Special Desputen to THE BUY. CAMP UPTON, Yaphank, L. I., Sept. 13.—Bell's Boys and their training camp CARRYING FOURTEEN have had a new honor heaped on them. Suddenly and quite unsolicited, the gtatus of the organization here has been jumped to that of an "expeditionary force," and rule 3 of the press instructions was clamped down tight. Hereafter there is to be printed no "information tending to disclose the names of line officers in expeditionary forces and reference to individual units of these forces." Only names of staff officers

be sent back to New York with ex-emption slips in their pockets.

Men Are Well Mothered.

The folks back home who are wondering how their boys are being cared for may quit worrying here and now. Besides being fed by French chefs, every morning at 7 o'clock they are individually examined and looked over by the army surgeons. This daily medicat inspection will be the rule for the first twenty days of camp life. Then to-day as fast as the companies could be marched to one of the flat turtle shaped pine Quartermasters' warehouses, the men were issued an additional army blanket each. So the nights ban snap and bite their durndest now and nary a soldier will even bother to turn over. A few of the companies are still shy on The folks back home who are wonder Soldiers to Have Many Smokes A few of the companies are still shy on spring cots and are sleeping on their hay mattresses on the floor, but soon this bit of discomfort will be abolished.

MAYER BARS DRAFT PLEAS FROM COURT

U. S. Judge Refuses to Grant " Injunction Against Local Board 155.

AUSTRIAN SEEKS RELEASE

Jurist Fears Bench Action Would Hamper Nation by Interference.

The right of conscripts to appeal to the courts from the decisions of the ex-emption boards holding them for mili-tary service was denied yesterday by Federal Judge Julius M. Mayer. Refusing to grant John Angelus, a drafted Austrian, an injunction against local board 155, which had ordered him to report at Camp Upton, Judge Mayer said: "I think Congress had no intention that the courts should interfere with this drafting proposition. It is a military measure taken in time of war, and it would be most subversive of military control and the proper denosition of the

control and the proper disposition of this extremely difficult new problem if the courts should put their fingers in this "If Congress had intended that courts should review the action of the local and district boards it would so have pro-vided, and unless an Appellate court says to the contrary, I am of the opin-ion that a District Court of the United ion that a District Court of the United States should resolve any doubt in favor of the Government. Any other view might tend seriously to embarrans the work of raising an army with its mantfold difficulties and tremendous detail. "If those that believe they are sufficied to exemption were able to apply to the courts it would be a most disturbing

situation and directly contrary to my understanding of the intent of Con-The jurist said that the Circuit Court
of Appeals will convene the first Monday of next month, and will undoubtedly
give precedence to a case of the character presented. Pending determination of the matter by the higher court he di-rected Ben A. Matthews, Assistant United States Attorney, to arrange with the Provost Marshal General's office for

script in question.

Angelus, under official rulings, would be entitled to exemption, as he is a foreigner who has never taken out first papers. He neglected, however, to file his exemption claim within the time pre-scribed by law, and it was refused there-

The military conscription law plainly states that the decisions of the local and district boards shall be final, excepting as the President may see fit to modify or reverse them, and both of these had held the man for service.
